

Contacts for Missouri Agriculture

2007

We are pleased to present the *2007 Contacts for Missouri Agriculture*. This publication is your source for information about Missouri's agricultural producer associations and councils. Inside you will find a complete list of commodity organizations, their officers and staff.

The state's commodity organizations are an excellent outlet for information and resources. They are always happy to provide you with speaker names, hand outs, and statistics for your projects and events.

The Missouri Department of Agriculture provides support to these organizations through the Division of Ag Business Development. The Division provides educational resources and market information to improve the overall viability, public knowledge and acceptance of agriculture in Missouri. This results in a better image and understanding of the industry statewide.

For more information about the Division of Ag Business Development programs and services, please contact us.
